## THE MILITARY SERVICE ACT

The Military Service Act, as amended, seems capable of doing its appointed work of securing a hundred thousand men for the infantry branch of the army.

In its original form, the law would not have accomplished its purpose. There were too many loopholes. The exemptions were too liberal and were taken advantage of in some parts of the country with altogether too much cheerfulness.

According to the latest returns, 58,668 men have been placed on active service, 11,514 have been ordered to report by registration, and 14,122 exemptions of category "A" men are still under review.

Making allowance for the medically unfit and for those whose exemptions will be confirmed, there would probably be a shortage of about 30,000. As against this, there are over 61,000 nineteen-year-old lads who have registered to be called up when needed.

Even with the arrangements recently made for allowing the younger men to remain in Canada until after the harvest, the recruits are going forward fast enough to maintain the divisions at the front.

Under the act, as it now stands, not more than a hundred thousand can be conscripted. It is quite probable, however, that parliament at its next session will be asked to remove this restriction.

## AUSTRIAN CABINET RESIGNS IN A BODY

CONDITIONS ARE GROWING MORE  
SERIOUS IN DUAL MONARCHY  
EVERY DAY

Amsterdam, June 23.—The Austrian cabinet met today and decided on a collective resignation, according to advice received here from Vienna.

NOT YET DECIDED.  
Paris, June 23.—After a meeting with Emperor Charles of Austria, on Friday says a dispatch from Zurich, Switzerland, Premier Seydewitz presented the resignation presented the resignation of the entire Austrian cabinet. The emperor said he would decide on Sunday whether to accept the resignations.

VIOLENT DISORDERS  
Paris, June 23.—The municipal council of Vienna has drawn up resolutions calling the attention of the government to the grave danger incurred and the threatening of public tranquility by the bread rioters.

A. ROGERS, Auctioneer  
F. C. LEONARD, Owner. DAN MCKINNON, Clerk.

## CORRESPONDENCE

To the Editor, Red Deer News:

Sir—Public meetings called to discuss important matters relating to the welfare of the community do good when the citizens recognize the right of their fellow citizens to hold different opinions from their own, in a way that needs to be developed in the public spirit of Canada. The citizens meeting in the Methodist Church on Sunday evening had the marks of a good meeting as a preliminary discussion of the root room situation in Red Deer. The issue of the meeting ought to be another meeting at a later date to take positive action to establish a social recreation centre in Red Deer under wholesome conditions. Such a meeting should be attended by five times as many citizens and probably all the city fathers will show their interest by being present.

Public meeting start people thinking and the exchange of ideas in good spirit is profitable. On Monday morning a citizen who is interested in the welfare of Red Deer said to me, "Why can't we have bowling on the green in Red Deer?" I am not a bowler, but being an amateur curler, and believing that the green is as wholesome a recreation field as the ice, I repeat the citizen's question. Why not? The game is one in which young and old can take part, and why not women as well as men? The city square may not be level enough for a professional green, but it would be fine for amateurs. Keep the fees down and let the people get together in summer as well as winter. Some one will object that this is war time. My own opinion is that good recreation within reasonable limits is always legitimate and never more so than under the strain of war conditions. If other citizens are interested let us hear from them promptly and another meeting can be arranged for the exchange of ideas.

W. S. BROWN,  
The Mansie, Red Deer.

quility by the bread rioters and other serious food difficulties, according to a dispatch to the Havas agency from Basel, Switzerland. The Vienna newspapers print stories of street disorders, which include the derangement of trains, and attacks on stores and cafes. Battered wagons also have been pillaged during the agitation over the reduction of the bread allowance. The police are taking rigorous measures to prevent a recurrence of the disorders.

## MORE FIGHTING ON ITALIAN FRONT IS CERTAIN TO COME

PREMIER ORLANDO HOLDS NO  
ILLUSIONS ABOUT DEFEAT OF  
THE ENEMY.

Rome, June 22.—The Austrians, unable to retire, will employ all their available reserves in a desperate effort to secure some sort of a success. Premier Orlando declared, in conversing with deputies today.

"The Austrians are fighting with unparalleled desperation and violence," the premier said, "it is certain that there will still be more fighting. The Austrians, unable to retire, are bound to exert their utmost, if necessary, by engaging all their reserves, for the purpose of securing some sort of a success."

"In one sector alone 5,000 enemy dead are buried."

"The attitude of the Italian populace in the rear of the line is magnificent. Their confidence is sublime."

REINFORCING AUSTRIANS  
Paris, June 22.—Fresh struggles on the Italian northwestern front are foreshadowed by the bringing up of reinforcements by the Austrians telegraphed to the Milan correspondent of the Temps.

German reinforcements are also reported to be on the point of arriving at this front.

## MILITARY NOTES

Lieut. Roy Quigg arrived in the city Saturday last, after completing his course in the Royal Air Force. He is on ten day leave, after which he leaves for service overseas. He seems very fit after his arduous duties and we congratulate him on the pronounced success he has met with since he joined up with this splendid arm of the Imperial service.

Captain Horace Meeres, who reverted to go to France, was seriously wounded and on recovery placed in a construction battalion, has again been promoted to the rank of captain. He says they are working sometimes from 4.30 a.m. till 11 p.m., and they are as black as Indians with the sun and weary for want of sleep, but in spite of it all, he says, we are feeling very fit and manage to smile and say "Why worry?"

C. H. Linn, who has been attending the High School, left for his home at Innisfail, Alta., on Monday. He has joined the Royal Air Force, and leaves for Toronto on 29th of July to take up his course of training.

## PENHOLD

Mr. and Mrs. Knight, of Calgary, have been spending a few days with their friends Mr. and Mrs. Robinson. They left Penhold on Saturday for the coast, where they will make their home.

Mr. and Mrs. Coats have now taken up their residence in Mrs. H. McQuibb's new house.

Last Sunday, in Red Deer, Chas. Fred. Blain was married to Hilda Silts, daughter of Mr. and Mrs. Jerry Silts. We wish to extend hearty congratulations.

Dr. and Mrs. Cox and family are visiting their sister, Mrs. Wm. Day. They have just returned from China, and are on their way East. Dr. Cox has been medical missionary in China for the last 8 years and this is his second furlough.

A government bridge gang is at work repairing and leaving the culverts on the grade east of town.

There should be a motor club formed in Penhold and district, as each week the number of cars in the district increases. The following have purchased new Chevrolet: Mrs. Hugh McDougall, Messrs. J. E. Doan and J. Reeves. W. G. Strickland has a Ford.

Mrs. Dunbar and two little children are spending the summer with her father, Mr. Fulton. They arrived from Medicine Hat last Thursday and report that the Medicine Hat district is in very bad shape for want of rain.

Mr. McKeen is spending a few days in Calgary.

Mr. and Mrs. Geo. Donnelly went to Calgary for a few days.

### "SANDY" TALBOT WAS POPULAR BOY AT UNIVERSITY

#### DARING YOUNG AIR PILOT MET HIS DEATH IN AERO ACCIDENT

Mr. and Mrs. Thomas Talbot, of Lacombe, have received the sad intelligence of the death, caused by injuries received in an aero accident, June 3, of their son, Lieut. Alex. Talbot, better known in Edmonton as "Sandy."

No details of the sad accident were included in the brief cablegram from the secretary of the air ministry, London.

Deceased joined the royal flying corps about one year ago. He trained at Camp Mohawk, Ont., and after receiving his commission was instructor at Camp Borden, later going in the same capacity to Fort Worth, Texas. In February last he went overseas where he was a most efficient and painstaking officer and gained promotion rapidly.

The last letter received from him dated May 18, was to the effect that he had graduated that day and was on four days' leave previous to going to France. These four days he spent with his sister (Nursing Sister Louise Talbot), who has been on duty for the past three years in Salonica, England, and France.

Before joining the forces of the empire, Alex. Talbot was a student for three years at the University of Alberta. At the time of enlistment he was a student at law with A. G. MacKay, K.C.

He was well known in Edmonton, and always took an active part in all sports connected with the university.

He was a brave boy, just budding into manhood, of sterling character, and had a host of friends who extend their deepest sympathy to the bereaved relatives at Lacombe.

### BERLIN RESIDENTS ATTEMPT TO ESCAPE.

Copenhagen, June 21.—Four residents of Berlin attempted to escape from Germany Thursday in two air-planes. One succeeded in landing in Denmark but the other was brought down in the Baltic sea by German guardships. The machine which landed in Denmark had two occupants, one of whom, a reserve officer, is a professor in the University of Berlin. They say they fled from Berlin because of the conditions there.

The two machines left Berlin early Thursday morning. Their flight was noticed and guardships along the coast were warned. When the machines reached the Baltic, the guardships opened fire and brought down the second of the two airplanes. The machine which landed in Denmark is a large one of the Albatross type.

### NOT TOO LATE YET.

This week gives you about your last chance to have a real war garden. It is rather wonderful to think that you can begin even at this late hour, plant your seeds as late as July 1 and still have vegetables as good as the forehand gardeners, if not as early.

You can plant beans as late as July 1 and 15; beets, June 25, July 5, 15, and 25; carrots, July 5 and 15; corn, July 5 and 15.

It should be kept in mind that some vegetables have absolutely no tolerance for warm weather and planting them is waste. Peas and spinach will not thrive during July and August; neither will cress, endive, mustard nor turnips.

On the other hand vegetables that thrive in summer heat are beans, cucumbers, sweet corn, eggplant, melons, pepper, pumpkins, squashes and tomatoes.

Those that need plenty of moisture to do well are corn, cucumbers, pumpkins, melons, and squashes. None of them, however, should have the water applied to the vines or plants.

### MARVELLOUS FEAT OF SEEING TRILLIONS OF MILES

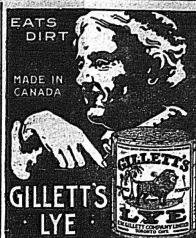

Every night that you watch the stars twinkling in the heavens you are doing what seems to be a superhuman feat—seeing a trillion miles. In fact, in one way you can see even trillions of miles. Just how you can extend your power of vision across this distance, so great that it is practically beyond the human mind to grasp, is explained as follows, in an article in Popular Science Monthly:

"We can see the sun, and he is more than 90,000,000 miles distant. Thus, when we gaze at him we are seeing many millions of miles.

The reason why they do not look as large and as brilliant, is because they are so very, very far away—trillions of miles, instead of millions of miles. After astronomers had calculated the distance to the sun, they were able to estimate the distance to the other stars. Obviously, these distances to the stars are not accurate to a mile, or indeed to many miles. However, it is absolutely certain that each one is at a distance of trillions and trillions of miles.

"A few of the stars are not a trillion of miles away. These comparatively nearer stars are known as planets, and all of us have heard about or seen Venus, Jupiter, Mars or Saturn. In fact, there are quite a number of planets, big and little, and these vary in distances from millions to between two and three billions of miles. These planets shine with the light from our sun, reflecting that light to us. We see them with our eyes, or our eyes assisted by a telescope. We are able, therefore, to see billions of miles. But still more wonderful, we can see trillions of miles! According to astronomical science today, all of the stars are trillions of miles distant.

"Indeed, so far off are they that astronomers usually speak of their remoteness in terms of 'light years,' that is, the time it takes the light from these stars to reach us. In the case of the nearest known sun or night, his is four and one-third light years."

### MAY REGISTER FOR NEXT THIRTY DAYS

POST OFFICES ALL OVER CANADA  
INSTRUCTED TO RECEIVE  
CARDS; NO TOTALS YET

Ottawa, June 23.—Although Saturday, June 22, was the day officially designated by the Canada registration board for all persons over 15 years of age throughout the Dominion to register, a further opportunity to fill in their cards and secure a registration certificate will be given those who were unable to register on the date set. For the next 30 days, at all the postoffices in Canada, registration forms will be received, and persons who have a good reason for failing to register shall not be deemed to have broken the regulations during that period if they cannot produce their certificate.

It will probably be some time before the numbers of registrations made, up to and including Saturday last, are definitely known. Senator Gideon Robertson, head of the Canada registration board, stated on Saturday, that reports received indicated a very large return.

A statement of a preliminary nature will probably be issued from the office of the board tomorrow. The registration booths, all over the Dominion did not close until ten o'clock on Saturday night, and reports from outlying districts may be slow in coming in.

Enquiries in Ottawa hotels and restaurants today, show that endeavor is being made to require observance of the law in regard to registration. At the hotels clerks are requesting production of registration certificates before permitting a guest to register. Restaurants followed the same proceeding in regard to their patrons. At the railway stations, also, production of registration certificates was required before tickets were issued.

### DECISIVE FAILURE FOR THE INVADERS

RETREATING AUSTRIANS ARE ENDEAVORING, UNDER GREAT DIFFICULTY, TO REGROSS SWOLLEN PLAVE RIVER

The first phase of the Austrian offensive has ended in failure—in defeat. The culmination of what was intended to be the crushing of Italy between the jaws of the Austrian pincers, is the rout of the invaders themselves.

With their backs to the swollen Plave, the Austrians for several days past had been trying to ward off the vicious counter attacks of the Italians and save the station. Now they are endeavoring, and still under great difficulty, to ford the stream and reach safety.

From the Montello plateau to the Adriatic sea, the enemy is in retreat. The river is literally clogged with his dead. Already his losses are estimated at 180,000 and the chances of his escape without additional heavy losses and made prisoner seem remote. Large numbers of the pontoon bridges the Austrians threw across the Plave have been swept away by the now torrential stream, and on all the sectors of the 33-mile front where they cutted edges of a mountain plain, they are being sorely harassed by the fire of the Italian guns and rifles and by the machine gun fire and bombs of the allied aviators who have done such notable execution since the attempted drive was started.

THE GREAT PREPARATIONS. Monster preparations had been made by the Austrians for what was to be the death blow to King Victor Emmanuel's men. Thousands and thousands of men, many of them brought from the Russian and Roumanian fronts, and guns and stores in tremendous quantities had been turned over to the various commanders of the drive over a battle area of virtually one hundred miles, running from the Asiago plateau to the Plave river, and then following that stream to the sea.

The audacity the Austrian high command had built largely for success on the belief that the Italian morale had been shattered when last year their great pincers closed in upon the Italian front and forced back the line in a great semicircle from the Julian Alps to the Plave river from the mountains in the north almost to the plains of Venetia.

Such a belief, however, was entirely erroneous. From the first onslaught the enemy met a rejuvenated army which fought him with the greatest gallantry, never ceding an inch of ground unless it was dearly paid for.

### BANK OF MONTREAL

ESTABLISHED OVER 100 YEARS

#### Sales Notes Collected

Farmers will save themselves much delay and possible loss by making Sales Notes payable at The Bank of Montreal—and leaving such notes in our care for Collection.

C. C. Gamble, Manager, Red Deer Branch.

Adding the Italians in the mountains were British and French armies who also fought nobly and everywhere defeated the enemy. Territory taken in the mountains was almost as quickly regained and the enemy held in check. NOT FIGHT. Along the Plave, especially on the Montello plateau, the gateway to the Venetian plains from the northeast, and at several points further south, where the Austrians succeeded in crossing the river, the Italians everywhere imposed such a strength against the enemy that he was unable to enlarge his gains and then with redoubled efforts, forced him to commence the retrograde movement which has developed into a disordered flight.

Large numbers of the enemy have been reported recently as coming up behind the northern line in the mountain region, and it is not improbable that shortly the second phase of the battle will begin. Complete confidence is felt in the Italian and other allied commands, however, that the enemy will meet foes of superior quality and that his efforts will go for naught. HAD IDEA THAT ITALIANS WOULD NOT FIGHT. An official communication published by the Stefani Bureau recognizes the first phase of the battle as definitely ended, with the enemy at a positive disadvantage. It estimates the Austro-Hungarian losses at 150,000, and declares if the enemy desires to obtain his objective it will be necessary to begin a new offensive, as, thus far, he has not attained any essential position of military value. The communication sets forth again the object which the Austrians had fixed for their advance, and points out that the idea that these objectives could be won was based on the belief that the Italian morale had been shattered.

### FARMERS' BUSINESS

For the past 54 years, this Bank has given particular attention to the business of Farmers.

We have helped many over the rough places, and have aided many more to the highest plane of success.

We are prepared to extend you every aid within legitimate banking practice.

Come in at any time and talk over your affairs with us. You are always welcome.

JNO. A. CARSWELL,

Editor and Proprietor.

WEDNESDAY, JUNE 26th, 1918.

"The Albertan (Calgary) cannot understand why the government was not content to permit a man who had been a member of the cabinet to be a member of the cabinet."

"Legislation, and that when he proposed any measure that it would be well to give it further consideration."

GIVE THE BOY A CHANCE.

In another column Rev. Brown writes regarding wholesome sports for young men in summer time. He has the right idea. Why not bowling on the green? Why not social recreation centre with gymnasium and all kinds of many training in it? We hope others will take up the idea. We believe many boys frequent pool rooms because they have no other place to go. Put yourself in the boy's place. He must have some place to go. Give him room to exercise his muscles in a clean and wholesome manner. Give him a swimming tank and let him have some real fun. And at the same time learn to swim. Give the boy a chance.

CAPT. PEARSON'S IDEA.

Capt. Rev. "Bob" Pearson advises all soldiers to vote for F. W. Gaetz, who seems to annoy some of the party papers. But why should it? As a matter of fact, Mr. Gaetz occupies his present position as Independent Union candidate because he stood by our boys at the front. Mr. Gaetz, on the other hand, was the only man likely to carry the pro-German and alien enemy vote. Why, we ask again, should not Mr. Gaetz get the soldier vote?

Will the election be held before harvest? That is the burning question of the hour. The time selected in the first place for the election was between spring work and haying. That time has just about passed. If the election is not called within the next week or so it will likely go over to the fall.

GALBRAITH DEFENDED AND CRITICISED

The electors of the Red Deer Provincial Constituency will be greatly interested in the controversy at present going on between the two big Calgary dailies over the position and merits of F. W. Gaetz as a candidate in the coming provincial election.

On Tuesday, June 18th, the Herald, in a leading editorial said:

GALBRAITH'S OFFENSE.

"According to the testimony of Capt. 'Bob' Pearson, soldier representative in the Alberta legislature, F. W. Gaetz would have been the government candidate in Red Deer constituency had he not announced his candidature in advance of the regular party endorsement. Writing to the Alberta Veteran, Capt. Pearson says:

"I was in the lobby of the Alberta legislature one evening during the session. Quite a number of prominent members were present. An announcement was made that Mr. John Gaetz had been nominated in

fact that Mr. Gaetz is the candidate of a Union party organization in Red Deer, there being a Unionist government in Ottawa.

"It would be as legitimate to charge Mr. Gaetz, the Liberal government candidate, in the constituency with a similar offence, there being a Liberal opposition in the Dominion House. As a matter of fact, the question of Union government for Alberta, or any other province, is not a federal issue, nor would the Albertan electors be concerned with the matter. The question was not for the fact that in this particular case it is serving its party at Edmonton and seeking some campaign cry that may help the party cause in the Red Deer by-election.

The position is, to say the least, peculiar. Supporting the Dominion Unionist government in federal politics, it seeks to defeat an Independent Red Deer provincial candidate by branding him a federal politician.

The truth is that the Albertan in Red Deer because he is not the Liberal party candidate, and that he refused to let himself be bound by the party machine. So far as the man is concerned, the Albertan candidate is a sample of the best kind of citizen. At various times the Albertan has declared itself a champion of practically all the policies advocated by Mr. Gaetz. There is but one thing the matter with the Red Deer man. He has defied the Liberal party machine. That is an offence, apparently, which the Albertan's Never Liberalism zeal cannot excuse."

Calgary Herald, Friday, June 21: "The Calgary Herald insists that Mr. Gaetz should be supported as an Independent in Red Deer because he is trying to introduce the Union party—a federal party—into provincial affairs. If the Herald would get up early enough in the morning, it would meet itself on the way back."

Calgary Herald, Friday, June 21: "If the Morning Albertan could have its way there would be no party candidates in provincial elections other than machine Liberals and Labor-Liberal. We are beginning to understand what the Albertan's never Liberalism really means."

Albertan, Saturday, June 22: "The Calgary Herald means that it is beginning to learn the meaning of the New Liberalism of the Albertan. It need not flatter itself. The Herald is too Tory in heart, mind and soul to understand any Liberal ideas. No warm Liberal idea could penetrate its hardened Tory mind."

It is necessary for us to state again that Federal politics were introduced into this election when Hon. J. J. Boyle came to Red Deer and called a meeting of the Liberal party, from which F. W. Gaetz was excluded because he backed Dr. Clark. It was stated at that meeting that no one except a supporter of Sir Wilfrid Laurier could get the nomination. J. J. Gaetz was spoken of as the only available man who could swing the pro-German, anti-British vote to the Liberal side.

It was after this meeting was held and Mr. Gaetz and others were snubbed for being loyal citizens, that an Independent Association was formed, and Mr. Gaetz joined it. This association promised to support any candidate brought out by them and Mr. Gaetz was the choice of the convention. That is the whole story.

If the bone-head Albertan man wants to be enlightened and will visit Red Deer he will learn more about the real situation here in three minutes than he will learn in a thousand years scrapping with the Herald over something he really knows nothing about.

FARMERS AND THE CROP.

The farmers of Canada will very shortly have to undertake the harvest work with the help of green labor. In this connection they should remember that we are at war. They should do just their work throughout the farm to suit the new conditions, and they should begin right in their own minds.

The first adjustment necessary is to change the point of view from one of criticism, discouragement, and fault-finding to labor conditions, to that of the soldier and war worker, and realize that we are going through a crisis, the most serious the world has ever witnessed without any exaggeration whatsoever.

There used to be talk among farmers derogatory to the city man and other inexperienced laborers who sometimes sought employment temporarily on the farm. Such talk is out of place now, with the Germans sixty miles from Paris and every available man in Britain and France fighting to save not only his own country but this country as well. Such Canadian farmers forget that they themselves have been farmers all their lives and in war time they can't expect to secure men volunteering from the cities with an experience in farm work equal to their own. That is an impossibility, but it is not impossible that farm production of this country be increased, despite the shortage of experienced labor. That this is true is proven by

the experience of this country in the manufacture of munitions.

When the war started Canada was absolutely inexperienced, unskilled in, and without the machinery for the manufacture of munitions. The manufacturers got to work. They studied the problem and they solved it.

Canada is turning out millions of dollars worth of shells every month, from the largest to the smallest, and the most minute mechanical contrivances in connection with fuses and time charges. Canada's record in the manufacture of munitions is one of the surprises of the war. It was not made by Canada saying, "Canada Can't," but by adopting the motto, "Canada Can." Canada did not refuse to try because of the scarcity of labor, but set to work to organize and employed men and girls who had never been inside a factory before. They accomplished the impossible! These inexperienced helpers were speedily taught their parts and the result is shown in the products of munitions from Canadian factories now known all over the world—not excepting Germany.

The result of organization and the willing war time spirit in Great Britain is equally convincing. Great Britain last year, largely with inexperienced labor on the land, increased her cereal production by \$50,000 tons, its potato production by 5,000,000 tons. The cultivated area was increased altogether by 1,000,000 acres. When in 1917, 820,445 men were taken from industrial organizations and placed in the army the war effort expended was with 304,000 women, and yet the production of guns was increased 30 per cent, aircraft 250 per cent, while the shipping tonnage amounted to 1,165,000 tons additional.

The best recent illustration of what can be done in an emergency when only inexperienced men are available is that of the battle of Picardy, when the fifth army under General Gough was overwhelmed and out-numbered, it looked inevitable that the Hun would break through and capture the city of Amiens, which would have meant the interruption of railway communication between Channel ports and Paris, cutting off the British from one of their chief bases of supplies. General Carey, however, saved the situation. He called upon all classes of men behind the lines, whether they were soldiers, cooks, camp followers, railway construction men, Chinese laborers, mail carriers, messengers, transport men, or whatever they were, and organized them to fill the breach.

With these men he succeeded in doing what the 5th army failed to do—he held the line! With no training in trench warfare, and no fighting organization before that time, General Carey gathered them together and this nondescript gathering of troops kept the Hun back for six days and nights until re-enforcements arrived. General Carey did not say "I can't use this untrained class of men," but he set to work without a moment's hesitation to make the best of them, and he succeeded in saving the British army and its allies from a desperate crisis.

Similarly, if the Canadian farmer pakes up his mind that these are war times and war measures are necessary there is absolutely no doubt he can utilize to a tremendous advantage the man power and the woman power of the towns, where people are only too willing to do his bidding, if they are organized to do so. He must not expect them to be experienced and to know as much about the details of farm work as he does. It has taken him a life-time to acquire his information. Townspeople have spent their lives at different work, but with his knowledge of farming and his intimate acquaintance with his farm and all its needs he should have the ability to organize inexperienced help, and show each helper his or her particular job and how best to accomplish it. A few hours patient teaching in any one particular line of work will very soon enable a greenhorn to "Carry on," as they say in the army. By patience and consideration the farmers of Canada can, without question, effect an organization from green but willing help from town that will not only surprise themselves but will also be of tremendous benefit to the Empire by the increased results of their harvest.

YOUNG CANADA.

It is not often that a letter from a lad of sixteen attains the publicity which has recently been given to that of a Toronto boy, which was noted recently by Sir Robert Borden in Parliament, and appeared in the pages of Hansard on the 25th of April.

At a recent session of the commons the House while he read a letter which he had received from a sixteen-year-old Ontario boy. The Premier regarded it as admirably expressing the spirit of the young men of Canada. The letter read:

"Toronto, Ont., April 18, 1918. 'Sir Robert Borden, Ottawa.

"Dear Sir,—I am asking you a favor to help me to get in the army. I am a boy of 16 years and want to give my life for my country. I have tried many times but failed. Why I am asking you is because you are like a King to Canada and if you said a word it would help me more than anything else. My dad has been to

the front and now he is back again, and you have taken my brother, and now I am the only one left to do something for my country.

And, Sir, if you only knew how I am going crazy to do something to gain honor. I am strong and healthy, I have never had any sickness in my life. I was just reading the paper this morning and saw what you said, 'Canadians must hold the line.' They cannot do it without men. Please will you give me a position in that line. I don't call myself a man, but I might like to hold that line. So please give me a chance, the line is more valuable than my life.

Yours very truly,

The name of the youthful patriot was withheld, but Sir Robert said that he lived on Melinda Street, Toronto.

Two sentences struck Sir Robert as remarkable—the one in which he says, 'now I am the only one left to do something for my country.' He might naturally and most reasonably have said, 'I am the only one left to do something for my family,' but he did not say that; he said, 'I am the only one left to do something for my country.' And then observe the last words of the letter, 'The line is worth more than my life.'

Sir Robert concludes in commenting upon this remarkable letter by saying: 'I am sure that that letter does indeed express the spirit of the Canadian people, and as long as that spirit endures, and I am confident it will always endure, we need have no fear for the destiny of our country, whether in this war or after the war.'

DESTROYING GERMAN SUBMARINES FASTER THAN BUILT.

Paris, June 22.—Two thirds of the German submarines launched are already at the bottom of the sea, according to a statement made to the deputies by the under-secretary of the navy.

"And," continued the under-secretary, "we are destroying them twice as fast as they are building them."

FOR SALE.—20 acres B.C. Fruit Farm in Nockup. First class Apple Trees, 9 years old, Plums, Pears, Cherries, and all kinds of small Fruit. House, Barn, Root House, and good creek water, 2 1/2 miles from town, 1 mile to school, 1/2 mile to Brouzay Railway Station. Price \$1,500, \$500 cash and rest in exchange on two horses and cows. Apply A. Berger, Red Deer P.O. June 18-19

## PUBLIC NOTICE

### Military Service Act, 1917.

Men 19 and 20 Years of Age.

Harvest Leave.

Leave of Absence on Ground of Extreme Hardship.

Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 18, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colors.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:—(a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

Issued by Department of Militia and Defence,  
Department of Justice.

### "INVICTUS" SHOES

give full value everytime. Simply because being honestly made, they will wear as only "good" shoes can wear.

You may buy lower priced shoes than "Invictus" but when you do, you are buying on a price basis, with economy as a secondary consideration.

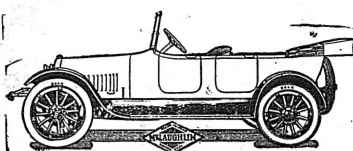

"Invictus" shoes are worth every cent we ask for them. Let your next pair be a pair of "Invictus" for real economy.

## The McLaughlin Valve-in-Head

Five Passenger Touring Car. E-SIX 45 SPECIAL

The McLaughlin E-Six Special appeals to Canadian motorists because it touches the family pride. A person who is proud of his motor, proud of his family, proud of his home, is likely to be discriminating in the selection of his motor car.

The E-Six 45 Special has an enviable reputation for its artistic lines and luxurious appointments. Wherever the car travels, on city boulevards, the park, or through country highways, it arouses enthusiastic admiration from all who see it.

McLaughlin supremacy has been established by the good service and satisfaction McLaughlin models are giving. The E-Six Special has done more than any other single model to establish this supremacy. The E-Six 45 Special embodies all the good features of its predecessors, with added refinements, such as longer wheelbase, full "U" door, etc.

This model is a replica of the E-Six 45 with respect to chassis, motor and transmission and all mechanical features. The special appointments include a top made of genuine English Bunkan rubber material with natural wood bows, and nickel plated slat trim; special mahogany instrument board with recess for speedometer and clock and locked compartment for small parcels. A tonneau light; and locked compartment in front of tonneau.

This car is beautifully painted in overseas blue, with black fenders and chassis.

In all points of merit in a motor car the McLaughlin E-Six 45 Special sets a new standard for beauty, luxury and efficiency among Canadian-made cars, and eclipses in beauty, power, efficiency, and superb appointments, any five passenger car ever built in our factories. This model is a source of pride to the owner as well as the manufacturer.

## HISTORY OF SPRINGVALE AND CLEARVIEW DISTRICTS

Rev. R. E. Finlay, who has taken such an interest in the districts south east of the city suggested that the school should write essays on the history of their respective school districts, and the following were the prize winners in Clearview and Springvale. These descriptive essays are written by Master Percy Gaetz, son of Mr. and Mrs. Heck Gaetz, and by Miss Helen Bennett, who, with her parents, has just left for the east. These essays will be read with considerable interest by the people of the districts interested, and we hope to receive like essays from Willowdale, Horn Hill, Edwell, and other districts.

### THE HISTORY OF CLEARVIEW SCHOOL DISTRICT

By PERCY GAETZ

The history of the Clearview School district began in the year 1911. The memory of those times is still clear in the minds of the old-timers of today.

About twenty years ago, when the pioneer settlers, among whom were A. H. Trimble, Chris. White, and D. W. McKinnon, felt the need of a school for their young folks, a meeting was held in Chris. White's little log house. Besides these three there were at the meeting A. P. Olsen and Neil Neilson, with Geo. W. Greene acting as secretary.

With one exception they agreed on erecting a school district which would take in part of Springvale on the east and Horn Hill in the south. A contract was let for the building of the school house, but on account of some objections by the Springvale people the contract was withdrawn by the government at Regina.

The location of the school became a contentious question in the several neighborhoods. Some of our friends wanted a large school district, but others with wider range could see that there was room for two school districts, now known as Waskasoo and Clearview.

At one of the meetings in the great campaign, a delegate was appointed to go to interview the government at Regina, resulting in a school inspector being sent up to view the situation. He realized the natural difficulties, and on his report we got our Clearview location, and left enough country on this side of the Red Deer river for the Waskasoo school district, of which A. P. Olsen was the first promoter. It is wonderful what time will do in healing grievances. All the hard feelings caused by different views have gone and people now meet as neighbors and friends.

In looking over the old records we find that during the last seventeen years the office of school trustee has been held by the following nine persons, viz.: N. Michener, D. W. McKinnon, Wm. Steel, H. W. Trimble, J. H. Comfort, Jas. Spiers, Thos. Meeres, and B. C. Trimble.

J. A. Youmans was the first secretary-treasurer and assessor. On his leaving for the Mission field in October, 1906, Arthur W. Willson, now serving his king and country at the front, held office for nearly a year. He was followed by D. W. McKinnon, who has been secretary-treasurer ever since. School was opened early in 1902 by Geo. Martin. He enlisted in the South African war and was suc-

ceeded by Edwin Laird, he by Miss Pearce, then E. Laird came back again. His successor was Miss McLellan, who taught till George Martin married her and took her to Grande Prairie in the Peace River country. Then followed nine teachers, viz.: Miss Cole, Miss Wade, Miss Delmers, Miss Sinclair, Miss Gladys Trimble, Miss Hope, Mr. Colvin Chadsey, Miss Hope again, and Miss Isabella Cate.

The school has been running fifteen and a half years and has a good record.

Of those in Mr. Laird's time, one is now a medical missionary in China, Garney C. Trimble, two are teachers, viz.: Gladys Trimble and Edith McKinnon; six enlisted in defence of the empire, viz.: Murray McKinnon, Dolmer Trimble, Sophus Jorgenson, Arthur Bower, Roy Trimble, and Port McKinnon.

### HISTORY OF THE SPRINGVALE SCHOOL DISTRICT

By HELEN BENNETT

The Springvale school district is situated to the south east of Red Deer. The nearest point to Red Deer is four miles. The present area of the district is twenty-two and three quarter square miles.

The first settler that came to the district was Mr. Hallgren, who came in the year 1884. Some of the late settlers were Mr. Brishin, Mr. Gumbeckley, Mr. Cole, Mr. Cole, and Mr. Beckley.

The Springvale school district was formed in the year 1892, under the laws of the North West territories. The first school was built on the south west corner of section thirty-one, o. Mr. Coran's farm. The school was a log building built by Mr. Coghill, and accommodated about thirty-five pupils. The first teacher of Springvale school was Mr. Husband, and the first school house consisted of Mr. Beavilsholmer, Mr. A. H. Trimble, and Mr. Joseph Cole.

During the first years the farmer had a great many hardships. Most of them did not have any horses to do the work, so they used oxen. Most of the houses and barns were built of logs and they had not the warmth that they have now. The machiner, they used to do the work took them a longer time to complete the work.

Later on the district became part of the local improvement district, No. 339.

After the school district became part of the local improvement district it improved the district a great deal especially the roads.

A church and parsonage was built on the corner of Mr. Gummow's land in the year 1901.

In 1910 a new school was built. It was a very up-to-date brick school. It has a furnace and a great many things that it had not before. The teacher of the school was Mr. Code.

In later years the farmers had more prosperous days. They built better houses and barns, and had many helps. They used reapers to cut the grain and plows to till the land. They began to use horses so that they had less work to do themselves.

### INSTINCT STRONGER THAN REASON.

That even in man instinct is sometimes stronger than reason is illustrated by the following incidents:

There had been shipped on a Mississippi river steambot a box with a glass cover, containing a very active rattlesnake. Whenever any one approached the box the serpent would strike the cover. The owner of the

reptile challenged any one to hold his finger on the glass and let the rattler strike it. There was no danger, and it seemed an easy thing to do. First one, and then another tried it, but when the snake gave a vicious spring the finger was invariably drawn back with a jerk. Instinct was stronger than reason and will power combined.

A young man in Paris had lost his last sou at the gambling table, which included a large sum belonging to his employer. He started for the Seine to drown himself. On his way there was a great commotion, caused by the escape of a lion from a strolling menagerie. People fled in all directions. Instantly the man who was seeking death climbed a lamp post and clung to the top of it, trembling in every limb. When the animal was captured and the danger was over he proceeded to the river and plunged in.

### NOT TIRED.

A Chicago teacher of music, who used to visit a neighboring town as conductor of the local band, once took a bunch of city players out with him to give a concert.

The orchestra was complete with the exception of the bass drum. The drummer consented to fill the vacancy, and the overture to "Post and Payant" was chosen.

The drummer was very conscientious, and did not fail to hit his drum vigorously at every beat.

This did not suit the conductor at all, and stopping the whole band he turned to the drummer and said, "Don't you see there are thirty-two bars rest just there for you?"

The good-natured drummer quickly replied, "Oh, that's all right. I'm not tired!"

WROTE ANNIE LAURIE.

Do you know that the song "Annie Laurie," supposed by many to be an ancient folk song, is just eighty years old? It was written by Lady John Douglas Scott, known as Anna Spottiswood, to whom "The Banks of Loch Lomond" is also attributed. Do you know that one Luigi Tarlato went from house to house in Italy during the early part of last century as a poor composer? On his rounds he picked up what the peasants thought were worn out fiddles. He would Aladdin-like, give in exchange bright new fiddles and take the old ones to Paris and London and sell them for fabulous prices. He died in miserably furnished quarters in Milan, leaving his relatives a fortune of 300,000 francs, made entirely from the sale of rare violins. Nowadays, so many fraudulent Stradivarius labels are found in worthless violins that thousands are deceived into imagining that they have discovered a fortune when they turn up a three dollar fiddle.

Do you know that the American historian, Alexander Wheelock Thayer (1817-1897) worked for fifty years collecting material for his great biography of Beethoven? The first volume of the five volume work was published in German in 1866. Do you know that the price of sheet music, even in Album form, has gone down enormously during the past fifty years? In 1861 a famous collection of piano music published in Paris as the "Pianists' Treasury," and then represented as the cheapest in existence, sold for \$5 a volume. Similar books containing even more music and better printing can now be had for one fifth of that price.

## EVANGELINE'S LAND TO HAVE A SHRINE

A giant of the orchard in full bloom, The fisherman doing his bit.

A new Mecca is beckoning to devotees of art and religion. Its name is Nova Scotia. Already the artists have made their pilgrimage and returned with charming pictures of Evangeline's Land. A collection of sixty paintings, the work of six New York men, known as the Nova Scotia Group, were exhibited recently in New York and elicited much praise.

The pioneers of Nova Scotia have blazed a trail over which a brush and palette laden army will follow in seasons to come. They will come to paint the gentle beauty of apple blossoms when the great Annapolis Valley is covered with a fragrant pink and white veil. They will come in cherry time to paint the rich red fruit and the happy people enjoying the Cherry Festival, a time honored custom. They will come in autumn to transfer to canvas the mad riot of brilliant coloring with which Nature paints the woods and hillsides and when the orchards' green beneath

Memorial Park, Grand Pre, N.S.

The railway company has purchased as the cheapest in existence, sold for \$5 a volume. Similar books containing even more music and better printing can now be had for one fifth of that price.

With the dedication of the new shrine, large numbers of French Acadians from Quebec, Montreal and Upper Canadian points, will make pilgrimages to Grand Pre similar to those made yearly to Ste. Anne de Beaupre. Their numbers will be swelled by many others who cherish a fondness for the gentle Evangeline and who will be eager to visit the scene of her story and to walk under the ancient willows, that still guard this storied spot.

J. C. Horton, of C. G. is the new teller of the Imperial Bank. Mrs. Horton and family arrived in the city yesterday to make her home here.

With bowling, fortune telling, music and various kinds of novel amusement at the W.I. supper and garden party, Friday evening, it should be the event of the season. Don't miss it!

D. A. McGill would like the job of cultivating your potatoes. He has all the machinery necessary, and the quiet horses to do the work well. Call him up. His phone is No. 227.

The National Day of Prayer being next Sunday a service will be held in the Balmoral School house at 2 p.m. It is hoped that every family in the district will be represented.

Mrs. W. F. Scatcherd, of Calgary, has been the guest of her sister, Mrs. H. F. Kenny, the past week. Yesterday morning they motored to Hanna, accompanied by Mr. Kenny, to visit their brother at that place.

The Great War Veterans are holding another dance at the Amorettes, Red Deer, Friday, June 28th. Loyola's orchestra will again be in attendance. Admission (including refreshments) \$1.00. Tickets can be had from the Gaetz-Cornett Drug and Book Co. and the Standard Drug Co.

W. Angel, a young clerk in the Merchants Bank, was removed to the hospital at Edmonton last week. He has been suffering for some time with a nervous trouble of the brain and it was thought his recovery would be quicker if taken to the hospital in that city. There appears to be no accommodation for such cases in Red Deer.

"Hoots, mon." Bring the barns and come along to the Presbyterian Church picnic. Be young again and have a good time with the children. Picnic will be held in Waskaseo Park, over by the Fair grounds. Bring your baskets and don't forget your tinny. Meet at the Presbyterian Church Hall at 3.30 Wednesday afternoon.

The Salvation Army Hall is now nearing completion, the interior is nearly finished and the brickwork is speedily erecting the new walls. As has been often expressed, the new building will certainly add a little beauty to this central site compared with the old laundry building. The programme for the opening services are nearing completion and will be announced later. The date for the opening services will be Saturday and Sunday, July 13 and 14. Colonel Turner, chief secretary, of Winnipeg, will be present to conduct the opening, assisted by a staff of officers.

## PINE LAKE

The Pine Lake International Bridge Co. has been busy building bridges on the new road to the south end of the lake. It is the hope of the company that the bridge will be completed in time to have a 46 foot right of way around the lake for an automobile road. Everybody is smiling at the beautiful rain we had Monday.

Frank Cobbold of the Strathcona Horse, and late of Pine Lake, has been reported missing.

The crowds that are coming to the Lake at the week-ends this summer are tremendous. Notwithstanding the counter attraction of Sylvan Lake, quite a number of Red Deer people are coming to the Lake. The fishing seems to be a great attraction. Please bring your certificates with you and save yourself and the hotelkeepers a lot of trouble.

Look out for the following dates: July 6th, Church Garden Party at Mrs. Chavley's. Everybody welcome.

July 18th, U.F.A. combined picnic at Pine Lake, consisting of Loyola, Lehighview, Elmore, and Pine Lake Unions. Everybody welcome.

A special meeting of the Sons of England will be held in the home of Bro. Jesse Halstead on Thursday evening at 8 o'clock.

1,500 most popular Victor records to choose from at Gaetz Cornett's. Get your flags for Dominion Day at Gaetz Cornett's.

The Hillsdown and Valley Centre Red Cross Helpers will hold a picnic on Mr. C. Moschenos' place on July 18. Dinner at 12. Kindly bring baskets. Everybody welcome.

The Mechanical Garage will, if they get sufficient support, convey parties to Sylvan Lake during the summer months, going out in the evening and returning in the morning. Parties desirous of making arrangements along this line will please call up the garage for further information.

## COPIOUS RAINS FALL IN SOUTH PART OF THE PROVINCE

EXTEND WELL OVER DRY BELT—SASKATCHEWAN DISTRICTS ALSO GET DOWNPOUR

Calgary, June 23.—Southern Alberta was visited with copious showers this afternoon, and as a result the farmers are happy. The rain could not have come at a more psychological moment than it did, for the farmers were beginning to worry.

The rains extended well over the dry belt near Medicine Hat, north and west to the north of Calgary. North and east of Calgary, on the Goose Lake line, there has been no rain, but the clouds are heavy and threatening. RAIN IN SASKATCHEWAN.

Regina, Saskatchewan, June 23.—An exceptionally heavy shower of rain on Saturday evening provided much needed moisture for the growing crops at points along the Soo line from Lang to Estevan, near the International boundary. Despite lack of rain up to Saturday, the crops presented a healthy appearance, as seen by the Regina correspondent of the Canadian Press, who travelled over the line from Moose Jaw to Minot, North Dakota.

Hall was reported along the Soo line at some points, but there were no indications of any damage to be seen and so far no injury has been reported from hail in this section of the country.

ALL NIGHT DOWNPOUR. Medicine Hat, Alta. June 23.—Rain, which started early this morning in a drizzle, has settled in for a steady downpour with every probability that it will last all night. It will be a time to save part of the crop and will brighten up the pasture, which was very much in need of moisture. At midnight it was still raining.

## HEAVY RAIN IN REGINA

Regina, Sask. June 23.—An exceptionally heavy fall of rain on Saturday evening provided much needed moisture for the growing crops at points along the Soo line from Lang to Estevan near the International boundary. Despite lack of rain up to Saturday, the crops presented a healthy appearance as seen by the Regina correspondent of the C.P.R., who travelled over the Soo line from Moose Jaw to Minot, N.D. While occasional fields showed a yellowish tinge, indicating the necessity for rain in the near future, generally speaking the crops along this line, especially from Rouleau to Yellow Grass, were standing up well under the dry spell.

## GREAT STRIKE IN VIENNA GROWING

London, June 22.—An Exchange Telegraph dispatch from Copenhagen says that, according to the Arbeiter Zeitung, of Vienna, a great strike movement has developed in the Austrian capital, though its full extent is not known.

The Vienna Workers' Council, the newspaper says, has issued a manifesto, saying it hopes the government will understand, in view of the strike movement, how necessary it is to increase the food rations.

Amsterdam, June 22.—Nine strikers were killed and 26 others were wounded in a clash today with the police at the government railway shops in Budapest, according to a telegram received here from the Hungarian capital.

Basil, Switzerland, June 22.—Dr. Alexander Wokerle, the premier, speaking before the Hungarian chamber of deputies yesterday, made a statement concerning the industrial strikes, and referred to the serious trouble in factories and on railways, and the extension of the strikes to several plants.

The premier told how the workmen in a locomotive shop were fired upon four of their number being killed and nineteen wounded. The proceedings in the chamber ended in a sharp exchange between Premier Wokerle and Count Karolyi, leader of the Independent party.

Mrs. Strickland, Reed, Bremer, and Rev. Brough were the delegates from Red Deer, attending the Baptist convention in Calgary last week.

Rev. Brough will give a Bible reading at Poplar Ridge schoolhouse on Wednesday evening at 8 o'clock, "A golden chain of blessing," and at the Baptist Church, Red Deer, subject, "Always."

Sergt. "Teddy" Meeres has sent the following poetic lines home from France:

TO MOTHER.  
"Thy Mothers' Day," 'tis Mothers' Day,  
Methinks the flowers along the way,  
That breathe their fragrance on the air  
Lift up their faces wondrous fair  
In tribute to one yonder. These poor  
Whose labor and whose constant care  
Have given their kindred livelihood  
In some far distant neighborhood.

If such tribute the flowers pay,  
That bloom a week, then fade away:  
What owe I, then, whose score of years  
Have known your cares, and hopes, and tears;  
And marked your worries, prayers,  
Beyond repay the debt appears.  
More would I offer if I could,  
Than this short verse of gratitude.  
E. S. MEERES.

MORE NURSES WANTED.—To take the place of those gone to the front, many more will be needed, now is the time to train. Four vacancies in the Galt Hospital Training School for Nurses. Thorough training given in every branch of the profession. "Three years' course. Eighteen in school. Good opportunities after graduation for institutional work. The board will give preference to graduates of the school in filling school positions in the Hospital. Staff salaries from \$60.00 to \$125.00 per month. Comfortable rooms in the Nurses' Home, which is a separate building. Remuneration to Pupils Nurses has just been raised to \$15.00 first year, \$14.00 second year, \$16.00 third year. Three weeks' vacation. Pupils can be taken in at once—Apply The Lady Superintendent, Galt Hospital, Lethbridge, Alberta.

June 18-2

## TENDERS FOR COAL.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Coal for the Dominion Buildings," will be received at this office until 12 o'clock noon, on Thursday, June 27, 1918, for the supply of coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained at this office from the caretakers of the different Dominion Buildings.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender.

By order,

R. C. DESROCHERS,

Secretary.

Department of Public Works,

Ottawa, June 6, 1918.

Get our prices before buying.

K. M. BYERS - MANAGER

## Lay In Your Coal

Have you considered the necessity of laying in your stock of winter coal now? Some people have.

We have had two to three teams on the go this last month, and have put in almost as much coal as in the regular winter season.

But there are others—  
The Government war demands in the coming months will tax the railways to the limit. Manitoba has to get her coal from Alberta this year.

We urge you to get in your coal now if at all possible. Somebody will come short next winter. Will it be you?

When you are buying get the best—  
SAUNDERS CREEK

We have others, if you want a variety.
